

Subject: Enhancing Vocational Empowerment: A Partnership Opportunity with We Inc.

Dear [],

We are Team Spirit, students in Dr. Annetta Dolowitz's Nonprofit Organization Management course at UAB. Our class is currently engaged in a service-learning project with We Inc., focusing on identifying strategic partnership opportunities to enhance their community impact.

After reviewing organizations whose work aligns with We Inc.'s focus on vocational empowerment, our team identified Disability Rights & Resources as an ideal potential partner. We believe a collaboration would create significant mutual value and directly advance our shared commitment to promoting independence and inclusion for people with disabilities.

Specifically, We Inc. hopes to be included in Disability Rights & Resources' network of community resources as a provider of vocational training for individuals facing barriers to employment. In turn, We Inc. offers a supportive, hands-on environment where your clients can develop technical and interpersonal skills, fostering self-assurance and agency. This collaboration seems especially timely given recent policy developments that may limit access to Medicaid-supported services—an area where both our organizations play vital roles.

We believe WE INC. would be an excellent partner in this work. Under new leadership, the organization has honed its focus on measurable, independent success for its participants. This strategic direction is producing clear results: 70% of WE INC. interns now transition into private-sector employment. This outcome underscores a core philosophy of empowering individuals with the skills and agency for long-term, independent careers, directly aligning with your mission of promoting independence.

We would be honored to discuss this potential collaboration further. Would you or a member of your team be available for a brief meeting in the coming weeks?

Thank you for your time and consideration.

Sincerely,
